

Arina Tagmazian

Artist and Scientist

I love to observe my surrounding and 'catch the moments'. Moments of nature's beauty, of interaction between peoples, of silent emotions and enjoyment of existence. I notice them in science, I notice them during my walks, and I notice them wherever I am every single day. Through my art, I am sharing those moments and the stories behind them with the world.

CV

Born in Kharkiv, grew up in Moscow, became an artist in Helsinki.
